3v1 Possession Game

SETUP: 10X10 yard squares. As many squares as needed so all players participate. 3 attackers vs 1 defender.
INSTRUCTIONS: Play 3v1 until attackers or defenders get three points. Attackers score every 5 consecutive passes. Defenders score by dribbling out of the square through one side designated by the coach.
COACHING POINTS: Focus on all four moments of the cycle of possession: 1: Get open, 2: Good 1st touch, 3: Touch to the side (or turn and face away), 4: Accurate pass. Give your team mate a big angle to receive the pass. Take a small 1st touch, away from the defender. Take a touch to the side before passing to create space. Pass to the feet. Whenever a pass is made the third attacker must run to provide a passing option on the right or left of the ball. Pass to the player with the most time and space. Turn on the 1st touch. Use deception (fakes).
