SoccerSpecific.com **Session Plan: Give And Go Progression 1 - Mauro Nobre**

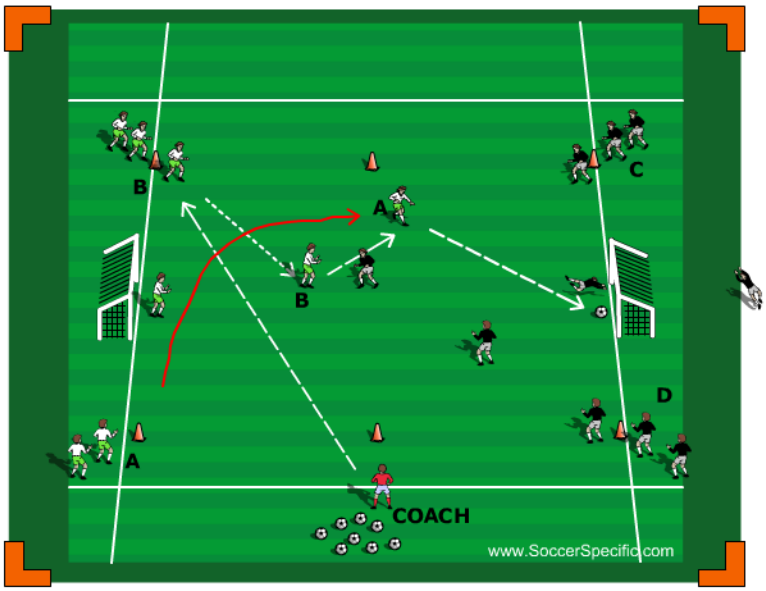

ACTIVITY #1

Set up: Give And Go Pattern With Flags Or Cones Standing In For A Defender. Cones are set 12 yards wide by 20 yards long. Two lines of players as shown. Players in line A each with a ball.
Instructions: Player from line A dribbles straight at defender (flag or cone), then passes to feet to player B, says "one-two" and sprints forward. Player B returns the pass with one touch into forward space then overlaps wide. Player A receives the ball behind the defender and plays ball to overlapping B player. Rotation: A goes to B, B goes to A.
Coaching Points: Dribble straight at defender to make him commit. Pass to the feet. Communicate: "one-two". Accelerate into space. Good first touch. Player B: Face in so you can see the forward space and pass one touch.

ACTIVITY #2

Set up: 2 V 1 Give And Go. Cones are set 12 yards wide by 20 yards long. Three lines of players as shown. Players in line A each with a ball.
Instructions: Player A passes to feet to player B, and overlaps. Player B dribbles diagonally then faces up to make the defender commit. Player A sets up the angle for the 1-2. Rotation: Switch teams after a few turns. Point for dribbling/controlling ball past the end line. Defender scores by dribbling at opposite endline.
Coaching Points: Dribble straight at defender to make him commit. Pass to the feet. Communicate: "one-two". Accelerate into space. Good first touch. Player B: Face in so you can see the forward space and pass one touch.

ACTIVITY #3

Set up: 20x20 yard grid. Two teams. Two goals with goalkeepers. Each team defends one goal and attacks the opposite goal. The coach has a supply of balls and serves it to the opposite corner, alternating teams.
Instructions: The receiver B dribbles in diagonally while A overlaps at speed. Defenders C and D are activated as soon as the first pass is made. Play is continuous until the ball is out of bounds. If defenders win possession they attack opposite goal. Players rotate to opposite line on their side. Shooters retrieve the balls and play them back to the coach.
Coaching Points: Quality passes on the ground. No "hospital balls". Quality first touch. Dribble diagonally. Speed on the overlap. Choose whether to shoot, pass or dribble. Passing options: outside pass, split pass, give-&-go, line pass, backpass to keeper. The choice depends on the relative position of defenders and supporting attackers.
